

# TENTATIVE PROGRAMME

## SESSION 1: BIOSOLUTIONS IN THE FIELD

September 23

TIME	TYPE	SPEAKER	COUNTRY	PRESENTATION TITLE
14:20	Oral GUEST 1	LOÏC RAJJOU	France	
15:00	Oral 1	DUBREU O.	France	SeedBioProtect project: Evaluation of seed treatment to control damping off in wheat and tomato
15:20	Oral 2	SOUFFLET-FRESLON V.	France	Towards integrated protection of rose against foliar fungal diseases: biocontrol and varietal resistance
15:40	Oral 3	DUSFOUR CASTAN P.	France	Identification of a network of correlations of potentially influential variables for biosolutions
<i>Coffe Break</i>				
16:40	Oral 4	PAJOT E.	France	The qPFD® tool: 12 years of operation and ongoing development for reliable evaluation of Plant Defense Inducer and biostimulants active substance, from the laboratory to the field
17:00	Oral 5	DEGRAVE A.	France	Enhancing apple self-defense by combining methods that leverage plant immunity
17:20	Oral 6 / Round Table	MARCHAND P.	France	Biocontrol active substances in Europe: the tipping point?
17:40	Oral 7 / Round Table	RANOUILLE E.	France	Local, short-run production of bio-based products for sustainable agriculture
18:00	Round Table			

# SESSION 2: BIOSOLUTIONS MODES OF ACTION

September 24

TIME	TYPE	SPEAKER	COUNTRY	PRESENTATION TITLE
09:00	Oral GUEST 2	MICHELE PERAZZOLI	Italia	
09:40	Oral 8	MALGOUYRE L.	France	A free amino acids-based biostimulant promotes cell division and alleviates heat stress effects in tomato roots
10:00	Oral 9	BENEZECH C.	France	No Pain No Gain, No graines* No pain* (* graines = seeds / * pain = bread)
10:20	Oral 10	BACHAR B.	France	A better understanding of the mode of action of a high quality microalgae-based extract by a transcriptomic and Phenotypic approach
Coffee Break / Posters				
11:20	Oral 11	BERROCAL-LOBO M.	Spain	Harnessing Epigenetic Modulation: Enhancing Plant Disease Resistance with Essential Oils and Plant-Derived Metabolites
11:40	Oral 12	TROUSSIEUX S.	France	Willaertia magna C2c Maky: mode of action and efficacy as a bio-fungicide
12:00	Oral GUEST 3	ERIC LIEGEOIS	France	
12:20	Lunch			

## SESSION 3: COMBINING LEVERS TO OPTIMISE CROP STIMULATION AND PROTECTION

September 24

TIME	TYPE	SPEAKER	COUNTRY	PRESENTATION TITLE
14:20	Oral GUEST 4	LUCIANA PAGNUSSAT	Argentina	
15:00	Oral 13	FONTAINE P.E.	France	From Waste to Biocontrol: antifungal properties of a Leek by-product extract
15:20	Oral 14	BOURQUE S.	France	Disinhibition of grapevine immune responses: an innovative strategy to improve Plant Defense Inducers efficiency
15:40	Oral 15	PECOURT A.	France	Microbial bio-input association, a potential alternative to reduce chemical inputs in a local agricultural system
<i>Coffee Break / Posters</i>				
17:00	Oral 16	TAPIA D.	Spain	Essential oil mixtures as synergistic insecticidal agents
17:20	Oral 17	PALLUCHINI M.	Italia	Assessment of Biodegradable Biopolymers Combined with Plant Growth-Promoting Bacteria for Sustainable Agricultural Applications
17:40	Oral 18	CABRE L.	France	Plant defence elicitation during drought in Tomato: Bridging the Gap Between Laboratory and Field
18:00	Oral 19	BENNECEUR I.	Belgium	Lipopeptides: A Promising Future Alternative to Copper and Sulfur Treatments for Apple Scab Control
18:20	Oral 20	PIERRE E.	France	Rhamnolipids, promising biosurfactants for sustainable agriculture: protective agents against branched broomrape and biostimulants for brassicaceae

## SESSION 4: SYSTEMS AND MOLECULAR BIOLOGY, DIGITAL TOOLS AND AI

September 25

TIME	TYPE	SPEAKER	COUNTRY	PRESENTATION TITLE
09:00	Oral GUEST 5	TILMANN WEBER	Denmark	
09:40	Oral 21	CAHUZAC R.	France	Unraveling Biofungicide Modes of Action through Metabolomic Profiling
10:00	Oral 22	CORSO M.	France	Revealing the ecological roles of specialized metabolites in rapeseed seed exudates
10:20	Oral 23	ATANOSOVA V.	France	Stilbenoids as promising environment-friendly natural products to minimize the contamination of wheat and grapevine with toxigenic fungi and associated mycotoxins
<i>Coffee Break / Posters</i>				
11:20	Oral 24	AIT KOUJANE F.	France	Genome mining reveals novel secondary metabolites in non-rhizospheric Pseudomonas strains, underlining their role as plant growth-promoting bacteria (PGPB)
11:40	Oral 25	KENFOUI J.	France	Heterologous Expression of Bananamide and Putisolvin for the Biocontrol of Gray Mold Disease in Grapevine
12:00	Oral 26	VAILLEAU F.	France	A bacterial Genome-Wide Association study approach adapted to intraspecific microbial diversity identifies new plant growth-promoting factors
12:20	<i>Lunch</i>			

# SESSION 5: PLANT-MICROBIOME INTERACTIONS AND (A)BIOTIC STRESSES

September 25

TIME	TYPE	SPEAKER	COUNTRY	PRESENTATION TITLE
14:20	Oral GUEST 6	VICTOR CARRION	Spain	
15:00	Oral 27	GONZALES V.	Spain	Culture-dependent and metabarcoding characterization of the endophytic microbiota (fungi and bacteria) associated with Bethencourtia palmensis and its biotechnological potential
15:20	Oral 28	PRIGENT-COMBARET C.	France	Rhizospheric Pseudomonas: Biological Weapons Against Orobanches ?
15:40	Oral 29	GOVIN-SANDUJO A.	France/Cuba	Deciphering the Potential of Bacillus Strains in Promoting Wheat Growth Under Drought Stress and Fusarium Biocontrol
<i>Coffee Break / Posters</i>				
17:00	Oral 30	MARAHATTA B.	Belgium	Temperature-Dependent Effect of Cyclic Lipopeptides Produced by Pseudomonas fuscovaginae UPB0736 in Biocontrol
17:20	Oral 31	STRINGLIS I.	Greece	The Effect of Rhizosphere on the Resistance of Wild Tomato Relatives to Verticillium dahliae
17:40	Oral 32	YOUSFI S.	France/Tunisie	Towards a novel biopesticide from Bacillus velezensis 32a: Unveiling the synergistic potential of dual purified polyketides and a siderophore for crown gall biocontrol with insights into their low cytotoxicity
18:00	Oral 33	WEHNER G.	Germany	Priming with biologicals to support drought stress tolerance of cereals

## SESSION 6: MANAGEMENT OF PLANT MICROBIOTA AND INTEGRATED STRATEGIES

September 26

TIME	TYPE	SPEAKER	COUNTRY	PRESENTATION TITLE
09:00	Oral 34	TIMMUSK S.	Sweden	Plant–microbiome interactions under a changing world
09:40	Oral 35	DUFOUR M.C.	France	Action of Pythium oligandrum on Grapevine Trunk Diseases and its impact on microbial communities
10:00	Oral 36	DUTILLOY E.	Belgium	Nitrate as a Key Nitrogen Source to allow Trichoderma harzianum and Bacillus velezensis Compatibility in Biosolution Development
10:20	Oral 37	ALAHMAD A.	France	Prebiotics as a Soil Biosolution: Shaping Microbial Community Structure and Function
10:40	Oral 38	BRESSAN M.	France	Harnessing Vermicompost-Based Biostimulants for Soil Regeneration and Crop Resilience
<i>Coffee Break / Posters</i>				
11:20	Oral GUEST 7	MONICA HÖFTE	Belgium
